To: oneM2M Technical Plenary

Subject: Nomination of candidate to the position of oneM2M Working Group 2 (ARC) Chair

Convida Wireless is pleased to propose Dale Seed as a candidate for the position of Working Group 2 Chair of the oneM2M Technical Plenary dedicated to Architecture.

Dale is currently serving in the role as Working Group 2 Vice-Chair. He has also been actively involved in M2M standardization in such organizations as oneM2M, ETSI M2M and IETF. During his tenure in these organizations, Dale has made many technical contributions towards the development of these standards. Dale also has experience developing M2M and IoT platform solutions based on technologies standardized by these organizations. Based on this experience, Dale has a deep understanding of the architectural issues and requirements for end-to-end M2M and IoT solutions.

Convida Wireless firmly believes in the need for global M2M standards for the market to realize its full potential, and is fully committed to support Dale in his role as Working Group 2 Chair if he is elected.

Sincerely,

James J. Nolan

Jim Nolan,

Executive Vice President, InterDigital IoT Solutions
