oneM2M Technical Plenary

Subject: Nomination for Chair of oneM2M System Design and Security Working Group

IBM is pleased to nominate Peter Niblett as a candidate for the position of chair of the SDS Working Group under the oneM2M Technical Plenary.

Peter has been a vice chair of the Working Group and previously served as chair of the former Protocols Working Group. He has also been the rapporteur for the MQTT protocol binding and the Core Protocol Specification. He has shown commitment to producing quality specifications and his knowledge of protocols, standards and IoT will be an asset to the working group.

Peter has been involved in a range of standards activities over many years, including chairing an OASIS Technical Committee and participating in the definition of the Java Message Service api. He is also actively involved in the MQTT Technical Committee at OASIS.

IBM provides a range of IoT services and solutions and recognizes the importance that standards have in building a true IoT / M2M ecosystem.

Yours faithfully

A handwritten signature in cursive script that reads 'Brandon Brockway'.
