oneM2M Technical Plenary

Subject: Nomination of Candidate for the Position of oneM2M Working Group 3 (PRO) Chair

IBM is pleased to nominate Peter Niblett as a candidate for the position of Chair of the Protocols Working Group (WG3) under the oneM2M Technical Plenary.

Peter is currently serving as a Vice Chair of the Working Group, and contributed to oneM2M release 1 by leading the XML Schema definition work for the Core Protocol specification, as well as being Rapporteur for the MQTT Protocol Binding. He also helped with other details of the core protocol TS in a collegiate and constructive manner.

Peter has been involved in a range of standards activities over many years, including chairing an OASIS Technical Committee and participating in the definition of the Java Message Service api. He is also actively involved in the MQTT Technical Committee at OASIS.

IBM provides a range of IoT services and solutions, and recognizes the importance that standards have in building a true IoT / M2M ecosystem.

Yours faithfully

Neil Postlethwaite
Director, PLM IoT Connectivity, Security and Device Ecosystem
