

18 November, 2016

To oneM2M Officers, oneM2M Secretariat

**Subject: Nomination of Dr Victor Kueh for oneM2M WG1 (Requirements) Vice
Chairmanship Position**

On behalf of Huawei Technologies Co. Ltd., an ETSI member company, I am pleased to propose Dr. Victor Kueh as a candidate for the position of Vice Chair of the Requirements Working Group (WG1).

Dr. Kueh is well experienced in the standardization and industry development work in ICT, where he coordinates the company activity in oneM2M, and is actively participating in 3GPP SA1 focusing on 5G services and requirements. He has participated and contributed to other m2m/IoT standardization including IEEE P2413 on IoT architecture framework, CEN-CENELEC-ETSI working on the different European mandates, and more recently in IEC for the Vertical Edge Intelligence project. He has been involved in several m2m/IoT initiatives at both UK, European and international level for the vertical industries including smart energy, smart manufacturing, smart transportation and smart cities. I believe Dr Kueh will be a great resource in the next phase of oneM2M with respect to vertical industries engagement.

Huawei will provide all the necessary support and resources to Dr. Victor Kueh for fulfilling his task as the Vice Chairman of oneM2M REQ WG, if elected.

Sincerely,

WANG Xuemin

Director of Standardization and Industry

Huawei Technologies Co. Ltd.
