CONVIDA
WIRELESS

September 17, 2020

To: oneM2M Technical Plenary

Subject: <u>Nomination of candidate to the position of oneM2M Technical Plenary Vice Chair</u>

Convida Wireless is pleased to propose Dale Seed as a candidate for the position of oneM2M Technical Plenary Vice Chair.

Dale is currently serving in the role as SDS Working Group Chair. He has also been actively involved in IoT standardization in such organizations as oneM2M, ETSI M2M and IETF. During his tenure in these organizations, Dale has made many technical contributions towards the development of these standards. Dale also has experience developing IoT platform solutions based on technologies standardized by these organizations. Based on this experience, Dale has a deep understanding of the architectural issues and requirements for end-to-end IoT solutions. Dale has also been actively involved in the promotion and market adoption of the oneM2M standard. Dale has participated in Webinars, conferences and publications increasing the awareness and adoption of oneM2M. Therefore, Dale is well suited for the position of oneM2M Technical Plenary Vice Chair.

Convida Wireless firmly believes in the need for global IoT standards for the market to realize its full potential and is fully committed to support Dale in his role as Technical Plenary Vice Chair if he is elected.

Sincerely,

James J. Nolan
