Subject: Establishment of a Liaison Relationship with oneM2M

Dear Peter:

The 3GPP2 TSGs are involved in a number of activities related to machine-to-machine (M2M) support in 3GPP2 networks.

To promote harmonization of the M2M industry, 3GPP2 wishes to cooperate with oneM2M on the development of architectures, interfaces, and protocols used for communication relative to M2M services.

3GPP2 asks that a liaison relationship be established between oneM2M and 3GPP2 that would result in coordination of the work of our two organizations. We have already responded in separate correspondence to your liaison statement on "Service Layer interworking with 3GPP/3GPP2 defined networks", and feel that it is appropriate now to formalize our cooperation.

The liaison point of contact within 3GPP2 will be:

Dr. Xiaowu (Frankle) Zhao
Chair, 3GPP2 TSG-SX
tsqsx_chair@3gpp2.org

We look forward to your response and fruitful cooperation.

Sincerely,

Jane Brownley
