30st May, 2016

To: oneM2M Technical Plenary
Subject: Letter of Support for oneM2M MAS WG Vice Chairman

I am very delighted to recommend Mr. DongJoo Kim as a candidate of the Vice Chairman for oneM2M Management, Abstraction and Semantics (MAS) Working Group.

DongJoo has been actively involved in the oneM2M since June 2015, especially in MAS WG. He has made a lot of effort to define home appliance information models in oneM2M system.

He has shown impressive enthusiasm in IoT standard project in LG Electronics. So I feel confident that he is able to contribute for the success of oneM2M standard as well.

In the aspects of LG business domains, I believe that oneM2M can be one of important standards to constitute IoT eco-system.

LG Electronics will provide necessary supports for DongJoo to fulfill a given role if he gets an honor of the Vice Chairman for oneM2M MAS WG.

Sincerely Yours,
