Template Version:23 February 2015 (Do not modify)

Participation in, or attendance at, any activity of oneM2M, constitutes acceptance of and agreement to be bound by all provisions of IPR policy of the admitting Partner Type 1 and permission that all communications and statements, oral or written, or other information disclosed or presented, and any translation or derivative thereof, may without compensation, and to the extent such participant or attendee may legally and freely grant such copyright rights, be distributed, published, and posted on oneM2M's web site, in whole or in part, on a non-exclusive basis by oneM2M or oneM2M Partners Type 1 or their licensees or assignees, or as oneM2M SC directs.

oneM2M Procedure Notice:

oneM2M activities must adhere to the oneM2M Partnership Agreement and Working Procedures, which are based on principles such as fairness, due process, openness and transparency.

IPR Notices:

Each oneM2M Partner Type 2 and oneM2M Member contributing to the technical work of oneM2M must grant a perpetual, worldwide, royalty-free, nonexclusive license: to incorporate material from contributions into oneM2M Technical Specifications and Technical Reports; and for the oneM2M Partners Type 1 to publish the contributed material in Technical Specifications and Technical Reports. Care should be taken when making contributions containing third party material to ensure that the contributor has the right to grant the appropriate license for this material.

Each oneM2M Member who engages in oneM2M activities through its membership in a Partner shall be required to comply with that Partner Type 1's IPR policies, procedures and guidelines with respect to the availability of licenses for IPR(s) that are or may be essential to implement Technical Specifications and/or Technical Reports developed in oneM2M.

oneM2M cannot ensure the accuracy or completeness of any disclosure, investigate the validity or existence of a patent, or determine whether a patent is essential to the use of a oneM2M Technical Specification or Technical Report.

Antitrust Risk Notice:

oneM2M participants should be sensitive to, and avoid discussions within oneM2M on, sensitive topics such as licensing terms, price, territories, specific contractual terms, etc.

Industry Day in Kanazawa, one-day IoT Workshop, will invite world-leading industry professionals and technology experts to introduce 'oneM2M', the common-service IoT platform and its applications in the world-advanced IoT and Smart City implementations. The IoT activities and efforts, by government, industry, and academia in Japan, will be discussed and exhibited, as well. A short tour to the leading-edge R&D IoT Testbeds will also be provided by courtesy of the Japan Advanced Institute of Science and technology (JAIST), and the National Institute of Information and Communications Technology (NICT).

The mutual understanding and the global networking would stimulate the innovations and eco-systems for further IoT developments.

Industry Day invites all who are involved in IoT developments, engaged in business innovations, and interested in advanced technologies towards 'Digital Transformation'.

Registration is free and open to public.
