March 20th, 2013

To: oneM2M Officers and oneM2M Secretariat

Letter of support for the nomination of Dragan Vujcic as oneM2M SEC WG4 Vice-Chairman

Dear oneM2M Officers and oneM2M Secretariat,

On behalf of Oberthur Technologies, an ETSI member, I am pleased to announce that Dragan Vujcic will stand as a candidate for the position of oneM2M WG4 Vice Chairman in case he is not elected as a Chairman of the WG4, in the forthcoming oneM2M WG4 elections in April 2013.

Dragan has been active in standardisation area since 1998, working for several multinationals on network, device and now on security in research system design and standards. He has been an active 3GPP member for several years and developed a deep understanding of the technical challenges and working methods to make standards successful for time to market.

If elected Dragan will provide full support for the Chair and will strive to ensure that the development of the relevant oneM2M Security Specifications is undertaken in a fair, accurate, and diligent manner.

Best Regards,

Christian LEFEBVRE
Telecom Product Line Director
