**Subject: Nomination of Xuan HE**

Dear oneM2M officers and Secretariat:

**Nokia is pleased to nominate Dr. Xuan (Shane) HE for the position of oneM2M Requirements and Domain Models (RDM) Working Group Chair.**

Shane obtained considerable experience in standardization through making remarkable contributions during her last term as the RDM Working Group Chair since May 2019.

She has gained extensive experience in ICT standards and technologies from the time of obtaining her PhD until her current involvement in oneM2M and the collaboration with ITU-T SG20.

Her candidacy builds upon her track record and international background, and will continue to bring energy, competence and passion to the progress of oneM2M. She is firmly committed to the promotion of oneM2M standards to the marketplace.

As part of Nokia's long-standing commitment to the success of IoT and related standards, we will continue to provide all the needed necessary support to Shane to undertake her roles and responsibilities, if elected.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ulrich Dropmann', with a long horizontal line extending to the right.

Ulrich Dropmann
