Dear oneM2M Officer and oneM2M Secretariat,

RE: Letter of support for the nomination of Tyson Macaulay for oneM2M SEC WG4 Vice-Chairman

On behalf of Intel (through its subsidiary McAfee), a TIA member, I would like to stand as a candidate for the oneM2M WG4 Vice Chairman.

I have 20 years of IT security experience including 4 books in print, patents, and many papers and articles. Additionally, I have been active in the development of security standards for approximately 5 years, currently involved in the ISO JTC1, ISO SC27 and the Professional Engineers of Ontario. I have also previously engaged in standard efforts in the International Society of Automation (ISA), the Internet Engineering Task Force (IETF), and the Cloud Security Alliance (CSA).

If elected I intend to support the Chair to the best of my ability and bring the resources of McAfee to bear to ensure the success of oneM2M WG4.

Regards,

Tyson Macaulay
Vice President, Global Telecommunications Strategy
