

Mrs. Karen Hughes
oneM2M Secretary
650, Route des Lucioles
F-06921 Sophia Antipolis
France

27th January 2020

Dear Karen,

On behalf of ORANGE, an ETSI member, I am pleased to nominate Mrs. Marianne Mohali as a candidate for the position of oneM2M RDM Working Group Vice-Chairperson in the forthcoming election during TP#44, February 2020.

Marianne leads Orange activities in standardisation for IoT. She is Orange's lead delegate in oneM2M, and has extensive experience in standardisation organisations. She attended IETF for several years from 2008, and was an active delegate in 3GPP CT3 and in 3GPP CT1 from 2013 to 2018. She also participates in GSMA.

If elected, Marianne will provide full support to the Chair and strive to ensure that the development of the relevant oneM2M specifications is undertaken in a fair, accurate, and diligent manner. Orange will provide Marianne with the support required to successfully fulfil her commitments, including allocated time and travel arrangements.

Yours sincerely,

Vincent Danno
Director, Wireline IoT & Cloud Standardisation
Orange
