TP Ad-Hoc on 2013-09-30

20 September, 2013 12:52 PM

1 Attachment, 49 KB

Following the TP Ad-Hoc of 2013-09-18, we can attempt to make progress in two parallel activities:

1. allow the WGs to refine the line items in the spreadsheet;
2. collect proposed changes from Members to the categorizations and the priorities against the existing line items

Consequently, a TP Ad-Hoc is planned for 2013-09-30 with the intent of addressing the second prior to TP7 - see the portal for more details of the meeting.

Please submit your proposed changes to the categorizations and the priorities as an input document to that meeting. To facilitate rapid analysis of the input documents, please change entries in the attached spreadsheet to indicate your proposed changes, and include it in an input contribution to the TP Ad-Hoc on 2013-09-30. Please do not use track changes. Inputs in other formats may not be considered at this meeting.

The deadline for input documents to this meeting is 2013-09-27T16:00 UTC. Input documents received after the deadline shall not be considered at this meeting.

.....  
Peter W Nurse  
Chair, *oneM2M* Technical Plenary
