Dear Colleagues,

I am pleased to report that the IIC Liaison Working Group recommended, and the IIC Steering Committee approved, the proposed liaison between our two organizations. We look forward to a long, successful, and mutually beneficial relationship with oneM2M.

In terms of next steps, I would like to request your help with the following

- Approval: Please confirm that your organization has approved the liaison.
- Promotion: We believe this MOU is of sufficient value to the IIoT community as to merit a formal press release and associated marketing effort. Please let us know if this would be of interest to your organization.

Best regards,

Wael William Diab
IIC Liaison Working Group Chair
